Scalable Best Practices
Palghar District Administration

Saurabh Katiyar

IAS 2016 batch

Assistant Collector

District Profile

01 Palghar came into existence on 1st August 2014

02 Population of around 30 lakhs

03 Palghar is primarily a tribal dominated district

04 Facing issues like malnutrition, child mortality, maternal mortality, migration and limited employment opportunities

Palghar Development Corridor

01 Need arose because of stiff resistance of tribal people against land acquisition for big projects like Bullet Train

02 Hence District Collector conceptualized PDC to give local people some stake in development process

03 100% survey of PDC villages done to understand needs of villages and Village Development Plan completed

04 Funds gathered from converging various government schemes, CSR Fund and some funds from NHSRCL
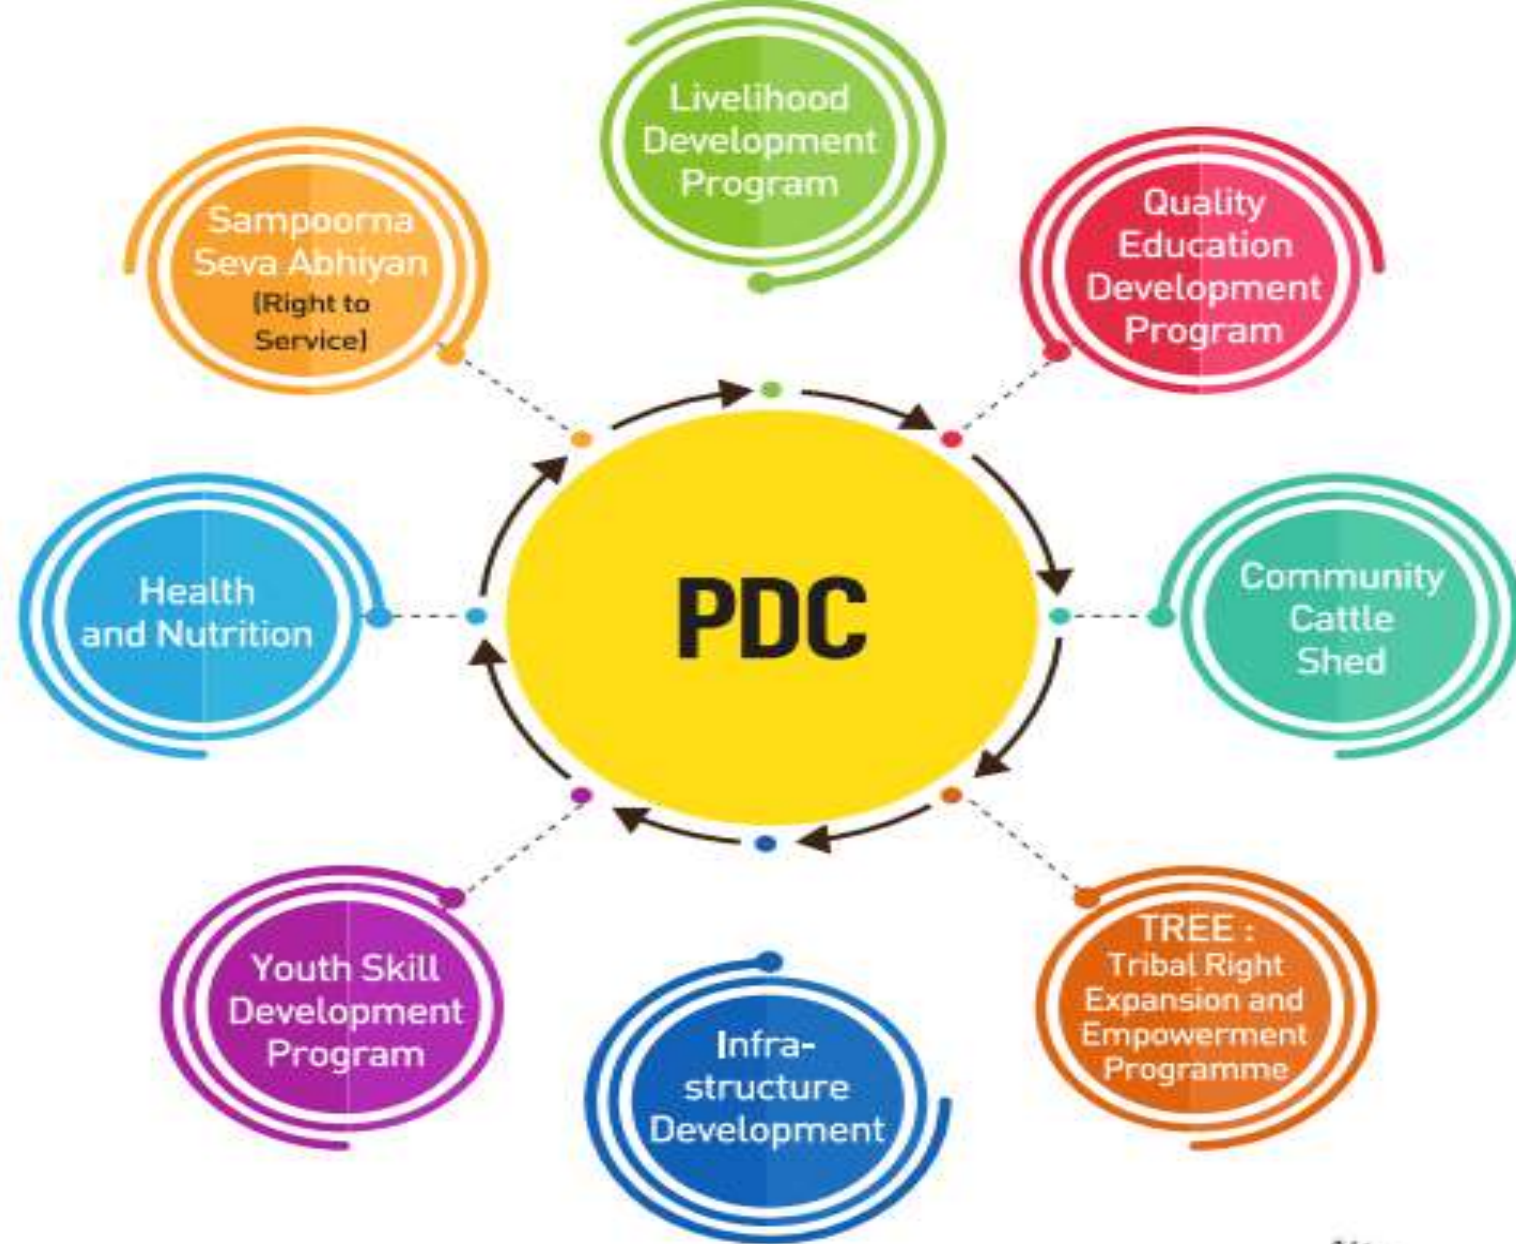

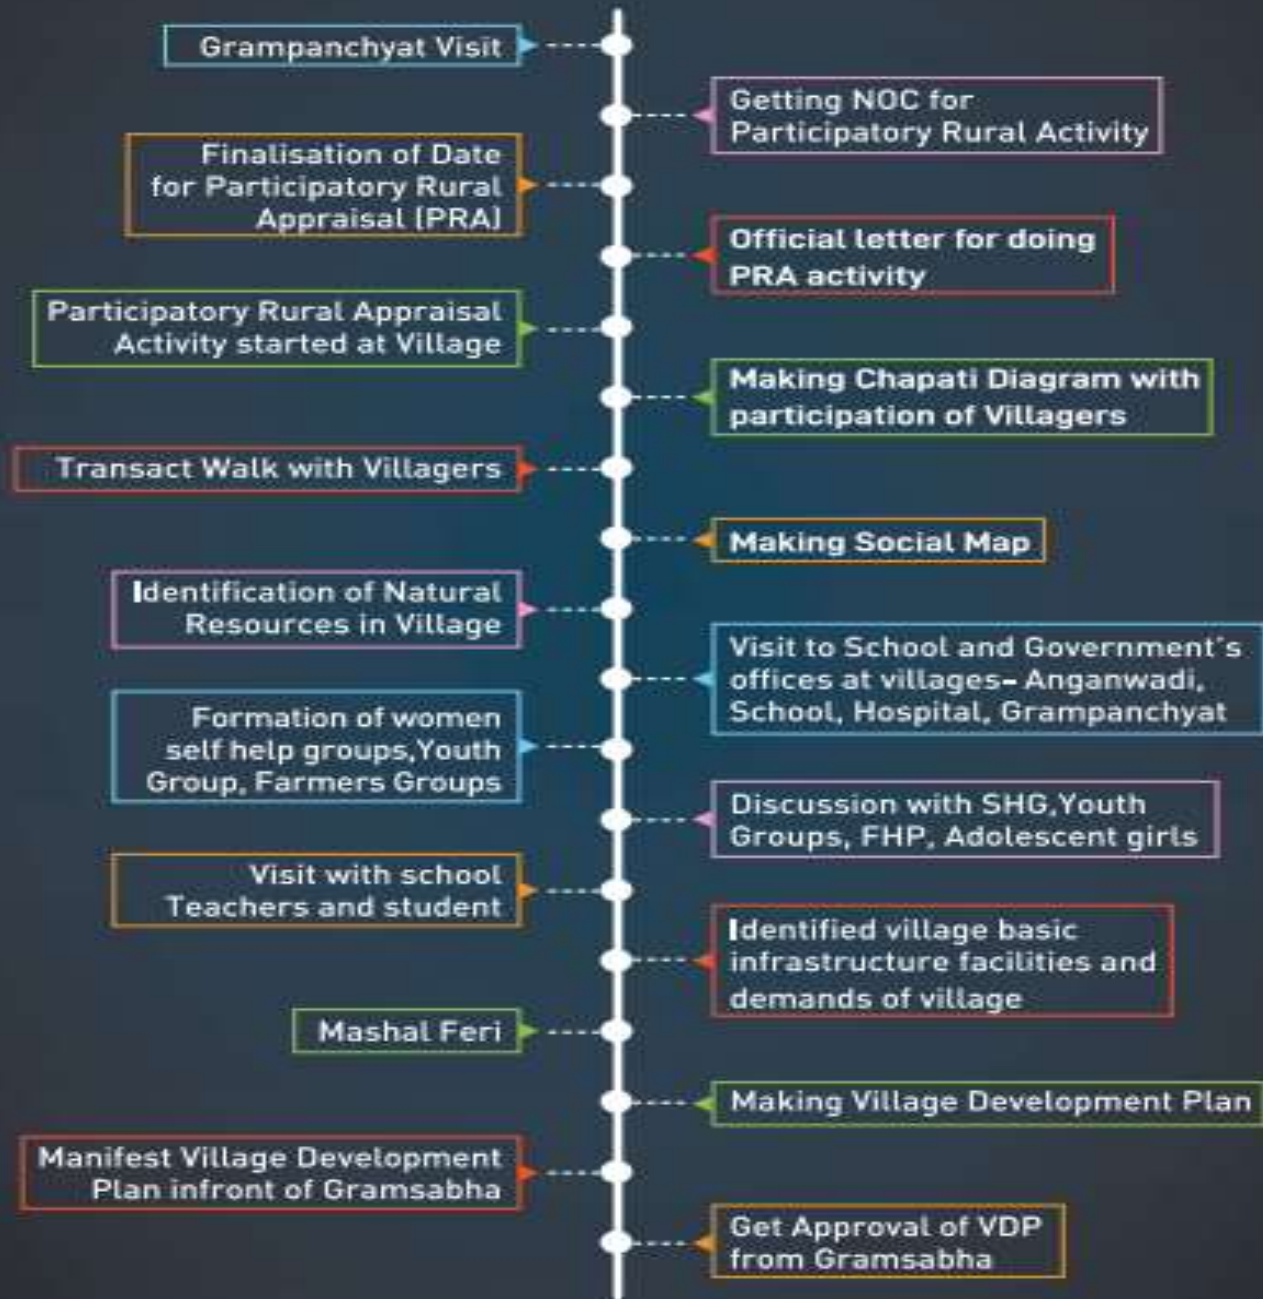

Diagram: Component of PDC

1.2 Components of Palghar Development Corridor
